Mazen EL-Gayar

SOFTWARE ENGINEER | FLUTTER & NESTJS & UE

Port Said, Egypt | **+20 103 434 3606** | Mazenxxelgayar@gmail.com | LinkedIn | GitHub | MazenX
Portfolio: mazenxelgayar.github.io

Professional summary

Software Engineer with 4+ years of experience building and delivering production-ready software across mobile, web, desktop, backend, and game development. Specialized in Flutter for Android, iOS, Web, macOS, and Windows applications, NestJS for backend services and APIs, and Unreal Engine for cross-platform game development targeting Android, iOS, and Windows.

Built and contributed to a wide range of applications across enterprise, healthcare, education, and SaaS domains, including multi-tenant ERP systems, Facility Management platforms, AI-powered healthcare apps, e-learning platforms with live video classes, LeanGo applications, entertainment apps, and location-based services using Maps.

Experienced in building products end-to-end, from initial ideas and architecture through development, deployment, and maintenance. Worked on live products, collaborated with cross-functional teams, contributed to open-source Flutter packages on pub.dev, and mentored fresh/junior developers.

Experience

- **Senior Flutter Developer | Penguin (KSA) | Part-time | Oct 2026–Present** — Builds the Penguin (students and parents) and Penguin Staff (teachers and supervisors) Flutter apps on one shared package for Android, iOS, Web, macOS, and Windows: Zoom-style live video classes, courses, homework, real-time chat, and QR parent linking; set up CI/CD store releases.
- **Senior Software Engineer | DoctorVoice (Egypt) | Part-time | May 2024–Present** — Builds Flutter apps for Android, iOS, Web, macOS, and Windows and NestJS APIs; managed QC, AI, backend, frontend, mobile, and data-analysis teams; served as liaison between the CEO/Marketing and tech teams; mentored 5+ interns.
- **Independent Game Developer | MazenX | Jul 2026–Present** — Founded the studio and independently develops, tests, and publishes Unreal Engine games for Android and Windows using C++ and Blueprints.
- **Senior Flutter Developer | FlexoNexus (KSA) | Full-time | Jan–Mar 2026** — Built a multi-tenant ERP mobile app; delivered four client flavors using shared architecture and client-specific workflows; supported controlled store releases.
- **Flutter Developer / Project Manager | Grwan LLC (UAE) | Full-time | Mar–Dec 2025** — Led LeanGo Eye, FTE, FM, CIL, and related app development; coordinated Jira work and staged Play Store/App Store releases.
- **Flutter Developer Lead & Mentor | RASID (Egypt) | Full-time | Apr 2024–Mar 2025** — Mentored 7+ developers in Flutter, Dart, clean architecture, OOP, and state management; built RASID and Admin apps; performed reviews and coordinated releases.
- **Flutter Package Publisher | pub.dev | 2025–Present** — Published reusable Flutter packages including PayPal checkout, i18n translation tooling, and utilities.

Technical skills

- Mobile: Flutter, Dart, Android, iOS, Web, macOS, Windows, GPS/maps, NFC, Bluetooth, QR/barcode, camera, notifications, offline/background services.
- Backend & Data: NestJS, Node.js, REST APIs, sockets, Firebase, SQLite, Hive, JSON serialization, pagination.
- Architecture: OOP, Clean Architecture, design patterns, dependency injection, modular/reusable components, Cubit, Notifiers, GetIt.

- Delivery: Testing, debugging, unit testing, code review, Git/GitHub, Codemagic, CI/CD, Agile/Scrum, Jira.
- Game development: Unreal Engine 5, C++, Blueprints, gameplay programming, movement, combat, AI/navigation, Android/iOS/Windows targets.

Selected projects

- **Multi-tenant ERP platform (FlexoNexus)** — Shared architecture, client-specific workflows, and four white-labeled app flavors.
- **LeanGo applications** — Contributed to most of the family, including LeanGo Eye, LeanGo FTE, LeanGo FM, LeanGo CIL, and others; facility/enterprise workflows include GPS, NFC, messaging, safety, and ticketing.
- **Penguin** — Saudi online-learning platform: student/parent and staff Flutter apps on one shared package, with Zoom-style live video classes, on Android, iOS, Web, macOS, and Windows.
- **DoctorVoice** — AI-assisted healthcare applications with Flutter clients and NestJS backend services.
- **Open-source Flutter packages** — PayPal checkout and i18n tools on pub.dev.
- **MazenX Unreal Engine games** — Crazy Kix, The Bone Runner, and Gambling Addiction; 2D movement, combat, enemy AI, traps, and interactive systems.

MazenX game stores: Crazy Kix Windows | Crazy Kix Android | The Bone Runner Windows | The Bone Runner Android

Crazy Kix source code: GitHub repository

Additional product work

- **MyFlix and MyFlix Remote** — Connected desktop/mobile media ecosystem with synchronized playback and mobile remote control.
- **Samsarly** — Real-estate marketplace with map-based property search and AI-assisted price estimation.

Education, honors & certificates

- B.S. Computers and Informatics, Suez Canal University, 2023 | GPA 4.0, Excellent with Honors | Ranked 5th in the Faculty of Computers and Informatics.
- Presidential Recognition from the President of Egypt at Suez Canal Authority Stadium; represented SCU and held the university flag. Also honored by the SCU President.

UE5 Blueprints — Udemy, Stephen Ulibarri | ITI Flutter Course Certification | English B2 | 45-hour IELTS Preparation Camp | Grwan and RASID Experience Certificates | RASID Certificate of Appreciation.
